Imagine playing the UK National Lotto draw 88 times every week and the EuroMillions Lotto draw 36 times every week...

...Absolutely **FREE!**

Let me tell you, it certainly increases your interest in knowing the results.

Sceptical?

Like me, you probably see hundreds of get-rich, money making schemes every year. There are quite literally hundreds if not thousands of websites that claim that they can make you six-figure incomes for a few easy hours work per week. A lot if not the majority of them are a genuine waste of time and money. All that usually happens is you end up buying or subscribing into something that nobody is really interested in and that has no actual benefit to yourself either. The only real winners being the few people who initially created or promoted the scheme.

So when presented with a "Business Opportunity" that claims to allow participants to not only play effectively for free, but also to make an attractive and regular "autopilot" residual income from the UK National & EuroMillions lotteries, I can understand that you may be sceptical. After all, not many things these days are *fun, free and income generating* (and legal) all at the same time!

So how can I address your scepticism?

Well, here are some reassuring points...

- The company behind **e-lottery**, **Virtual World Direct**, is a member of the [Lotteries Council](#). The Lotteries Council was formed 25 years ago with the aim of representing the common interests of fund-raisers large and small, in all areas from charities to sporting bodies, all of whom are working to comply with gambling laws. This alone should give you the reassurance that a recognised body has looked at the business and is happy to accept their membership.
- Both the co-founders, Tom Brodie and Len Fitzgerald take an active role within the company and will often respond personally to any queries you may have.
- Take a look at the web site by clicking the graphic below. It's not your average mile long biz-op site. It's professional, rich with content and has a wealth of information that should answer any questions you may have.

- Click on [e-lotteryTV](#), select "Stories" then "The Business" and listen to some of the ongoing success stories.

Too good to be true?

124 lottery entries per week :: Playing effectively for free :: Dramatically Increased Odds Of Winning

All this, along with the Lotteries Council membership makes it very easy to go ahead and give it a go with 100% confidence that it's all genuine, above board and exactly what they are saying it is...

... That being: [the smarter way to play](#)

It almost sounds too good to be true doesn't it?

But guess what? - ***It isn't!!!***

So what happens now?

I am going to show you how you can get involved with what is surely the most amazing lottery syndicate system in the world. **e-lottery** is easy to join, easy to promote and can be played effectively for free with very little effort.

When you win, you win more money

Even though you share your winnings with your fellow syndicate members, you still win more than you would have done if you were playing solo in the same lottery draw having matched the same lottery numbers. It's a proven fact because you play with *guaranteed matching numbers*.

Take a look at the tables below which explain the prize draw breakdowns for each lottery.

UK Lotto prize breakdown

Number of main balls matched	Playing on your own you would have won	Type of Winnings 	Your e-Lottery Syndicate winnings would be
If you matched 2 main e-Lottery Syndicate Nos.	£0	4 x 3 numbers win 4 x £10 = £40 + 49 =	£0.82
If you matched 3 main e-Lottery Syndicate Nos.	£10	3 x 4 numbers win 3 x £56 = £168 41 x 3 numbers win 41 x £10 = + £410 = £578 + 49 =	£11.80
If you matched 4 main e-Lottery Syndicate Nos.	£56	2 x 5 numbers win 2 x £1,656 = £3,312 42 x 4 numbers win 42 x £56 = + £2,352 = £5,664 + 49 =	£115.59
If you matched 4 main e-Lottery Syndicate Nos, plus bonus ball	£56	2 x 5 numbers + bonus number win 2 x £68,494 = £136,988 42 x 4 numbers win 42 x £56 = + £2,352 = £139,340 + 49 =	£2,843.67
If you matched 5 main e-Lottery Syndicate Nos.	£1,656	1 x JACKPOT WIN 1 x £2,893,908 = £2,893,908 1 x 5 numbers + bonus number win 1 x £68,494 + £68,494 42 x 5 numbers win 42 x £1,656 = + £69,552 = £3,031,954 + 49 =	£61,876.61*

So, you can see that even if you only match two numbers, you still win a small amount. Match just three numbers and you actually **win more** than you would of if you had a single normal Lotto entry! Match 4 or 5 main numbers and you can see your winnings go through the roof!

EuroMillions Lotto prize breakdown

To sum up, **Virtual World Direct** has developed a unique method of legally and professionally running National Lottery Syndicates on-line called the e-Lottery Syndicate© Multi-Win System, that gives you a dramatic mathematical advantage to win more compared to playing on your own...
